

4. Selectors (Tanlab oluvchilar)

Dars reja:

▼ CSS syntax

```
p {  
  color: green;  
}
```

p → selector (tanlovchi)

color → property (xossa)

green → value (qiymat)

▼ Selectors

Selector - HTML hujjatimizdan element(lar)ni tanlab olish uchun ishlatiladi

▼ Element (Tag)

```
<style>  
  p {  
    color: red;  
  }  
</style>  
-----  
<p>Hello world!</p>
```

▼ Class

```

<style>
  .information {
    color: red;
  }
</style>
-----
<p class="information">Hello world!</p>

```

▼ ID

```

<style>
  #info {
    color: red;
  }
</style>
-----
<p id="info">Hello world!</p>

```

▼ Attribute

```

<style>
  [disabled] {
    color: red;
  }
</style>
-----
<p disabled>Hello world!</p>

```

▼ Universal

```

<style>
  * {
    color: red;
  }
</style>
-----
<p>Hello world!</p>

```
