

## 12. Box model (Quti modeli). Margin, Padding, Border

Reja:

### ▼ Box model

**Box model** - HTMLdagi har bir element CSS uchun shu modelga asoslangan bo'ladi. Ya'ni CSS har bir elementimizni Box (quti) modeli ostida ko'radi

### ▼ Padding

**Padding** - elementning content qismidan border (chegara) qismigacha bo'lgan masofa

```
<style>
  .box {
    padding: 10px;
  }
</style>

-----

<div class="box">Box (quti) modelini amalda ko'rish</div>
```

## ▼ Border

**Border** - elementning chegarasi

```
<style>
  .box {
    border-width: 5px;
    border-style: solid;
    border-color: blue;
  }
</style>

-----

<div class="box">Box (quti) modelini amalda ko'rish</div>
```

## ▼ Margin

**Margin** - element va uning atrofidagi elementlar orasidagi masofa

```
<style>
  .box {
    margin: 10px;
  }
</style>

-----

<div class="box">Box (quti) modelini amalda ko'rish</div>
```
